My first contact with Andy Aydelott and Pristine Landscaping was in the late 90's when I was charged with finding a landscape maintenance contractor for The Seven Oaks East Homeowners' Association. After numerous interviews with contractors, and estimates that sometimes exceeded the total annual income of our association, we chose Pristine Landscaping for the job. I'm glad to report that this relationship is still in effect today and the homeowners of the neighborhood have been satisfied with their work and their prices.

A few years after hiring Pristine for our association's needs, I decided to hire Pristine to care for my home landscaping as well as the associations. I have been pleased with their work and especially pleased with their fees. I have always found Andy and his crew to be very professional and if any issues do arise, Andy is always helpful and cooperative when working out a solution. I'm also satisfied with level of expertise that Pristine has demonstrated concerning our landscaping needs.

Pristine Landscaping is also the contractor who cares for my parents' home which is on a ¾ acre lot. They are also pleased with their service and have been customers for about seven years.

I have, and will continue to recommend Pristine Landscaping to anyone looking for quality landscape maintenance or construction at fair and affordable prices.
